

# StirringWaters Charity Bass Tournament

## A Tournament with a Heart

**Where every cast puts a smile on the faces of people living with disabilities**

**Organizers:** A team of students from Lake Wales High School who have seen the need of people living with disabilities first hand and are trying to do something to help bring them joy. They are combining their passion for fishing with their heart for helping those who really need their help.

**The Mission:** To use the sport of fishing to rally a community to help create **StirringWaters**, an aquatic experiences intentionally and fully inclusive of people and families living with disabilities. A place where no one is left on the deck, but everyone can get into the fun.

**The Goal:** To raise as much as they can. Likely recognized with the special Sensory Room.

**Use of Funds Raised:** Funds will be used to help create the first step of **StirringWaters**, which will include Rainforest Adventure and an ultra disabilities inclusive restroom and shower building

**Note:** Fishing is open to teams of all abilities. The winners will receive trophies rather than cash awards so the funds raised can go to the mission.
